Universal Service Fund ,

Thank you for your time on checking our sponsorship proposal.

We are {Microsoft Partner Jamaica}. We are an organization raising the bar in Information Technology and need help breaking that bar and going beyond central Jamaica with our broadband internet connectivity to help persons especially children within my constituency and outside of my constituency that are not able to access proper or fast enough, or no internet connection for online classes, Despite the many faults or concern of crime and violence plaguing our country and many inner city communities the approach to the people must be love and care in order to even soften the hearts of many who are in error, since the past one year and 4 months I've took the time out to visit some communities plagued by violence and approached with love and had received similar from those who's technological rescue that my team and I had went to. Out of the many places that require the services I was able to go to places like, Whitfield Town, Denham Town, Cockburn Gardens, and some rural communities in Esher St. Mary where children on a hill top crave learning but are unable to do so because of the limited internet connectivity. Many more places are like this in Kingston and St Andrew that need or require connectivity in communities that Digicel and Flow have turned a blind eye to. so far I have managed to construct a WISP Wireless Internet Services Provider Tower that will be able to facilitate 1000 or more clients once completed, the fixture I have now by the ending of August will have just over 55 persons receiving internet connections. I am asking for the much needed assistance or contribution for the children who's parents who are not able to maintain the monthly contributions towards the data for their children's internet access Please to see this worthy cause as a upliftment for the communities we serve and as a way of reuniting and the educating of all people by form of given them access to information by usage of our services.

I look forward to talking with you. If you have any questions, please do not hesitate to contact us.
Warm regards,

CEO- Romario A.A Scott
